

FIAT 1500 CABRIOLET

Year	1964	Style:	2 door Cabriolet
Color:	Tomato Red & Black/tan int.	Engine:	1500cc in-line 4
Price:	\$17,950	Chassis #:	28911

History:

This is a VERY original and rare Fiat Cabrio. With only 91,000 miles, it has had only two owners since new. The car was originally purchased on February 12, 1964 by a Mrs. Rita Carroll in Barcelona, Spain. Three years later it went back to Italy for the Mille Miglia. In 1992 it was purchased by Stephan Protzen and was driven sparingly by this US owner and lovingly cared for throughout his ownership. The car includes the Original Bill of Sale and a significant amount of original records and documentation. A complete, unmolested and running car with a newer interior, this car is a wonderful piece of Italian sports car history that is very hard to find anywhere.

Condition:

Very good original condition. Never crashed, it has its original engine, body, gearbox and wheels. Body paint has developed a very nice patina from its original red color and has some small chips and minor scuffing. Otherwise, the body is very straight and there is no apparent rust anywhere. Interior appears to be newer and the door seals, glass and soft top are all in good condition. The engine runs well and the car drives very nicely. Car comes complete with a hard-to-find factory hard top in good condition, with some smaller paint chips. This car is an excellent candidate as a great driver or "preservation" car.

1964 Fiat 1500 Cabriolet

Body Design	Pininfarina	Body Built By	Pininfarina
Chassis No.	28911	Engine No.	
Engine Type	In-line OHC 4 cyl.	Material	Alloy heads
